Landscape NC_045512.2

Use the graphical representation of the genome of Sars-CoV-2 as a graphic score and create a time-based art work according to it.

The numbers in the upper part of the picture (1, 1K, 2K, ..., 29903) must be relatively intertpreted as time.

The duration of the art work will not be constricted and is open to preference.

Each colored element is a time-based object, it must be distiguishable from other objects.

The objects, which are above each other are simultaneous.

For example at ‚time' 4K following objects are present:

ORF1ab, YP_009724389.1, YP_009725299.1, YP_009725295.1 (the next red one s. website for all labels), YP_009742610.1.
